Introducing

CYPRUS FOREST INDUSTRIES GROUP

Cyprus Forest Industries (CFI) is the largest producer of industrial wood panels in Cyprus. For more than 50 years we are in business of manufacturing engineered wood products that serve the needs of the woodworking industry.

Cyprus Forest Industries Group is a Public Company established in 1970 and listed on the Cyprus Stock Exchange. The Group comprises Cyprus Forest Industries Ltd, the holding company, and two subsidiaries, PEP Ltd and XYLOFORM Ltd.

A wide range of industrial wood panels are produced in three plants:

- Melamine faced chipboard and MDF.
- Veneered faced chipboard, MDF and Plywood.
- Specialized plywood like veneered ply wood, marine plywood, HPL faced ply wood, shuttering plywood, etc.
- Highly specialized decorative panels and furniture components.

DESIGN YOUR OWN

CHOOSE YOUR:

- FORMAT • THICKNESS

Industrial Wood Boards

CHIPBOARD, MDF & PLYWOOD 🔍

Chipboard 🔍

Chipboard is an engineered sheet wood made from small wood chippings, bound together by a synthetic resin. It is free from natural defects and suitable for general purpose.

MDF 🔍

MDF fibreboard is an engineered board that is free from natural defects. It has a smooth sanded surface and precision finish. It suitable for general purpose.

Plywood 🔍

Plywood is an engineered wood made from multiple layers of thin veneer that are glued together. It is made with a “cross-graining technique to improve the strength and stability. This makes it an excellent general purpose panel.
